

Vladimir Fortov, President of Russian Academy of Sciences (RAS)
visited SACLA/SPring-8
June 8, 2015

RIKEN SPring-8 Center (RSC) welcomed President Fortov from Russian Academy of Sciences (RAS).

Place: SACLA Experimental Facility
RSC, Hyogo, Japan

After welcoming the group, we gave a tour of SACLA and SPring-8 facilities with Professors Kodama and Faenov of Osaka University. President Fortov was very interested in the compact x-ray free electron laser SACLA with combinative utilization of high-power laser systems.
